

Firstly, Canadian Professional Hockey & Goalie Schools will act in accordance with all federal, state, local, and arena policies and guidelines. USA Hockey and US Ice Rink Association have published guidelines and recommendations as well, which will be adhered to the best that we can.

Because this summer is so unlike all others, we are maintaining a level of flexibility with all of our camp locations. Our priority is the health and safety of our participants, their families, and our instructors, and decisions will be made with that in mind first.

The guidelines below apply to all of our events for Summer 2020.

- No sharing of water, snacks, or food of any kind. All athletes are responsible for bringing their own water and necessary materials.
- Wherever possible, we will maintain adequate social distancing in accordance with applicable guidelines. Wherever possible on-ice, instruction will be given with at least a stick-length distance between the coach and athlete.
- Athletes are expected to maintain a stick-length distance from each other when waiting their turn or in line. Rough-housing, wrestling, tackling, or other intentional physical contact will not be tolerated and the athletes will be removed from training without refund.
- Arena locker-rooms may or may not be accessible. Plan for the worst. Hope for the best. Plan on getting dressed outside, in the lobby, or at home if necessary.
- Athletes must get dressed on their own, or with help of a parent if they cannot do it by themselves. This is to maintain proper social distance in locker-rooms and throughout the arena. To help an athlete get dressed requires close physical contact, which we will prohibit this year.
- Athletes are required to self-assess before traveling to the arena. Feel off? Stay home.
- Before being allowed into the building, an instructor will pre-screen athletes, and athletes that do not look well will be asked to go home for the day and to monitor their health before returning to camp. We recognize and understand that these pre-screenings are subjective and imperfect, but we grant our instructors full authority to deny entry to participants who do not look well. Want to make sure that you're allowed through to train with us? Leave no doubt. Show up healthy, well rested, and ready to go.
- Practices will be designed in a way to encourage natural social distancing standards. Before hitting the ice, we will have a meeting off the ice to talk quickly about how the skate will flow and be organized.
- Our instructors are granted full authority to remove an athlete from the training session for noncompliance of the rules of engagement.
- Arena rules for pre/post practice flow will likely vary. As much as we can, we will use the facilities available, but may have to conduct much of the day outside. Plans for specific off-ice activities will depend on camp location, but we will do our best to maintain the applicable guidelines of the arena and local jurisdiction.
- Athletes are required to wash their hands before and after every training session, and in transition times between sessions (from the ice to video, or from off-ice to classroom, etc.).

These guidelines are subject to change.
